Testing Guide: Finance & Accounting Flow

Overview

Handles the core financial ledgers and accounting entries.

Components to Test

Chart of Accounts, Account Groups, Ledgers, Cost Centers, Bank Accounts, Journals, Journal Entries, Contra Entries, Trial Balances.

Step-by-Step Manual Testing

1. **Chart of Accounts Setup**
    - Go to `Account Groups` -> Create a group (e.g., 'Current Assets').
    - Go to `Chart of Accounts` / `Ledgers` -> Create a ledger (e.g., 'HDFC Bank Account') under the group.
    - Go to `Cost Centers` -> Create a cost center for a specific branch.
2. **Manual Journal Entries**
    - Go to `Journals` -> Create a general journal.
    - Go to `Journal Entries` -> Add debit and credit lines. (e.g., Debit Rent Expense, Credit Cash).
    - **Check:** Ensure the system enforces that Total Debits = Total Credits before saving.
3. **Contra Entries & Verification**
    - Go to `Contra Entries` -> Record a cash deposit into the bank.
    - **Check:** Go to the `Trial Balances` or `Ledgers` report. Verify that the balances for Cash and Bank updated correctly reflecting the double-entry bookkeeping rules.
